### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicants' communication paper dated 8/17/04 is acknowledged. Together with their earlier amendments, applicants have cancelled claims 1-18, amended claims 19-29 and added new claim 30. Therefore, the claims under consideration are the claims 19-30 which are renumbered as claims 1-12 respectively.
3. Restriction/election: Applicants arguments and remarks have been considered favorably, and the search was expanded further to genus of Group II invention, as there was no prior art found. Further search did not reveal prior art. Therefore, the restriction/election is now withdrawn.
4. The claims as now presented are definite, and they have clarity. Therefore, the rejections made under 35 U.S.C. 112 paragraph second are now withdrawn.
5. The double patenting rejections are also withdrawn as per MPEP 804, because the U.S. Application Sr. No. 10451728 is filed after the filing date of instant application.
6. The closest prior art ref. of record Das et al (U.S.P. 5691356, dated 11/1997) teaches disubstituted heterocyclic thrombin inhibitors with a core: "Azacycloalkyl-substituted 5 to 7-membered saturated heterocycle with 1 Nitrogen atom only wherein the N is connected to a bridge -CO-CHR-Z-R4".
7. The ref.'356 does not indicate or suggest to arrive at the instant invention with a core: "A-B-spiro-piperidine: furane-1, 4-diazine-T-Q".
8. Therefore, the instant invention is deemed to be novel and patentably distinct.
9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
